How Women of Color Transformed the Suffrage Movement
Recasting the VOTE
Cathleen D. Cahill

Cathleen D. Cahill is an associate professor of History at Penn State University. She is a social historian who explores the everyday experiences of ordinary people, primarily women. She focuses on women's working and political lives, asking how identities such as race, nationality, class, and age have shaped them. She is also interested in the connections generated by women's movements for work, play, and politics, and how mapping those movements reveal women in surprising and unexpected places.

Recasting the Vote: How Women of Color Transformed the Suffrage Movement (University of North Carolina Press, 2020) is a collective biography of six suffragists—Yankton, Dakota Sioux author and activist Gertrude Bonnin (Zitkala-Ša), Wisconsin Oneida writer Laura Cornelius Kellogg, Turtle Mountain Chippewa and French lawyer Marie Bottineau Baldwin, African American poet and clubwoman Carrie Williams Clifford, Mabel Ping Hau Lee, the first Chinese woman in the United States to earn her PhD., and New Mexican Hispana politician and writer Nina Otero Warren—both before and after the ratification of the Nineteenth Amendment.
